- Mandatory completion of Staff Health Declaration form for all staff

HEALTH & SAFETY

Safety procedures

Your safety is our utmost concern. We have installed a comprehensive fire protection system and our staff have also been trained. However, your understanding of the hotel's safety procedures is very important. Please read on...

What if... you've just arrived?

Study the fire escape plan (fixed to your room entrance door) upon checking into your room. Locate the emergency exits.

Count the doors between the fire exit and your room - this will help you in case it becomes dark and smoky. Find the alarm call points and extinguisher. Familiarize yourself with the location of the nearest fire alarm call point and know where the extinguishers and fire hose reels are located.

You find a fire?

Sound the nearest fire alarm upon detecting fire or smoke, break the glass of the nearest fire alarm or call the telephone operator.

What if... you hear the fire alarm?

If the fire alarm sounds, evacuate.

- Leave the room immediately via the nearest exit staircase.
- DO NOT use the elevators. DO NOT attempt to pack belongings
- Time is precious. Save your life first.
- Take your room key with you. You may need to go back to your room if your exit is blocked.
- Stay calm. Panic will not help.
